

A CREATIVE COVER LETTER

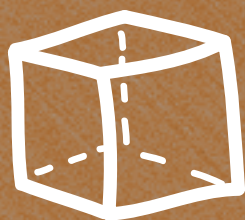

Instead of a boring ole' cover letter, I've morphed mine into a more exciting (hopefully) infographic!

AN INTRODUCTION

Hello! My name is Spencer Contreras and I've been doing graphic design for 11 years but have been a passionate creative for as long as I can remember!

3D

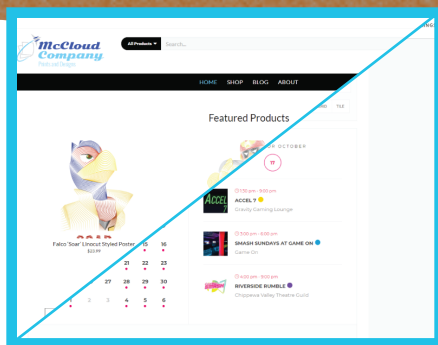

JACK OF ALL TRADES

I consider myself a “jack of all trades” when comes to digital design. I have strong experience with graphic design, photography, video media and even animation!

SELF DETERMINED

My skills don't stop at just design though. I've started my own side business selling fan art posters as well as create a community hub website for the video game community I belong to! I'm a self starter, willing to take on large projects to achieve goals.

2 sites!

COMMUNICATION

I believe my strongest skill is not art based, but rather understanding people. I have a great intuitive sense of others and enjoy collaborating to solve problems and complete projects.

DETAILED

I am meticulous when it comes to detail. I always triple check to make sure everything is correct on a micro and macro scale. Sometimes I think I slow myself down by trying to make everything too perfect!

PORTFOLIO

Well that wraps up the graphic! If you're curious about my art portfolio, you can take a look at the site listed below!
